Teams in league	12	12	12	14	28	31	32	32	32	32	36	36	36	36	36	36	36	40	40	40	
This spreadsheet has been compiled by Pete Zemroch and is based on the extensive researches of football historians such as Dave Twydell, Paul & Shirley Smith, Douglas Rose and Simon Inglis.																					
The number in each cell indicates the number of home league games that a club played at a particular ground in a particular season.																					
S indicates the entire season, N indicates that the exact number of matches is unknown and further information would be appreciated.																					
League games only are included, not cup ties or friendlies																					
The preference is to use non commercial names for stadia wherever possible.																					
Please acknowledge the source of this spreadsheet if you wish to use the information elsewhere.																					
I would also appreciate it if you could make a token
